Conference 2006 – To Create a Vision of Excellence by Sharing Global KSI Experience

The 10th WF Conference is unique in that it is all about participation. Your involvement, as the core of the WF, is the driving force of the conference. Framed around 9 concepts which include Enlightenment, Outcome, Participate, Conversation, Sharing, Diversity of Thought, Bridging, Networking and Unity, the conference aims to create a global KSI experience that will pave the way forward. Participation is a sacrifice, sacrifice is service, service is unity, and unity is strength. Please read the full report on the WF website to find different communicative ways that facilitate participation.

Strategies of Maximizing Participation in the Conference

The purpose of this conference is to create space for the exchange of global experiences and the generation of knowledge that will promote the aspirations of the KSI Muslim communities. For most of the topics, there shall be a ten minute presentation followed by two questions asked by the presenter, to be discussed by the participants at the conference. Discussions shall take place in groups of ten, who shall output their feedback into flipcharts. These flipcharts will be collated into reports, which will thereafter be placed on the daily newswire for your information. These questions will also be placed on the website, therefore you may send your feedback on the relevant topics, which will be printed and placed on the bulletin boards, in addition to being collated onto the reports. The WF website will also contain information on the agenda of the conference, in addition to all reports which can be downloaded in pdf format. Communicate and share your thoughts and ideas. This can be done by either sending sms on +971 (0)50 8727035 or by emailing conference2006@world-federation.org. Your contributions shall shape the direction the organisation takes over the next 10 years.
